Hike

Where the chamois live

Description

In the Simplon region, there are many little-used paths that are real gems for sure-footed hikers. In the past, alpine farmers used these paths to get from one alp to another more quickly. Today, only local hunters and mountain hikers, who love the seclusion and the impressive natural surroundings, still use them.

Past steep cliffs and over rushing mountain streams, you will experience pure nature. A good level of fitness, surefootedness and a head for heights are required.

These are 1-day tours. The starting point is always Simplon-Dorf.

If you would like to book several days, please let us know. We are also happy to organise accommodation and catering. There are plenty of routes.
