Hiking The golden autumn

Description

The larch forests in the Simplon region are magnificent trees. There are specimens that have been standing there for many hundreds of years. They have many a story to tell.

The giants are particularly impressive in autumn. The needles gradually change colour from the classic green to yellow-red. A beautiful blaze of colour.

These are 1-day tours. The starting point is always Simplon village.

If you would like to book several days, please let us know. We are also happy to organise accommodation and catering. There are plenty of routes.
